WORK EXPERIENCE

GaoTek Inc

Web Developer

October 2023 - October 2024

- Designed and implemented responsive websites using WordPress, customizing themes and plugins to meet project requirements.
- Collaborated with the development team to create visually appealing web pages using HTML, CSS, and JavaScript.
- Enhanced web experience by implementing SEO-friendly practices and improving website accessibility.
- Contributed to the project, learning agile development methodologies and project management best practices.
- Successfully uploaded and managed product listings on the company's official website. Example:- <https://gaotek.com/product/camera-remote-control-aircraft-drone-gaotek/>

EDUCATION

Maharaja Agrasen Himalayan Garhwal University

Bachelor of Computer Application - 66.57

June 2020 - June 2023

PROJECT

Harsh -Mern Portfolio [🔗](#)

November 2024 - November 2024

- Developed a dynamic and responsive personal portfolio using the MERN stack, comprising MongoDB, Express, React, and Node.js.
- Designed with Technical CSS for modern styling, enhancing user functionality and enabling easy project management and real-time performance across all devices.
- Uploaded the portfolio to GitHub, showcasing proficiency in full-stack development and modern web technologies.

Info Manager [🔗](#)

June 2024 - June 2024

Info Manager (ReactJS, Google Sheets, Bootstrap) developed a responsive web application that collects user information and stores it in Google Sheets. It is suitable for smaller datasets and can project current data regardless of screen size, utilizing ReactJS for the front end and Bootstrap for responsive design.

Harsh Portfolio [🔗](#)

May 2022 - May 2022

Developed a personal portfolio website to showcase skills and projects. Implemented front-end technologies: HTML, CSS, and JavaScript, and utilized DBMS for data management.

SKILLS

Front-end Development: HTML, CSS, JavaScript, ReactJS, Bootstrap, Tailwind CSS

Back-end Development: Node.js, Express

Database Management: MySQL, SQLite, Google Sheets integration

Full-Stack Development: MERN Stack (MongoDB, Express, ReactJS, Node.js)

Content Management Systems (CMS): WordPress

Programming Languages: Java, Python, PHP

Other Skills: DBMS Concepts, API Integration, Responsive Web Design, Deployment and Hosting (e.g., 000webhost, GitHub)
